HOURS: 10:00 a.m. – 4:00 p.m.

Must-Attend Workshop for Charter School Administrators and Board Members

This workshop will address what will likely be the most significant re-write of the Charter Schools Act since its adoption in 1992. We will review new charter school laws that will be effective January 1, 2020 and critical legislation that has passed the Legislature and the Governor is likely to sign.

These pending bills impact nearly every aspect of school operations including, but not limited to: charter petition language and timelines, changes to the charter renewal process, changes to the charter appeal process, the location of school sites, school admissions, new teacher credentialing requirements, and much more.

Attend this timely workshop to understand the impact of these new laws, ask questions, and gain practical steps to address them. Register today!

PRESENTER:

Jerry W. Simmons
